

The Vision

Our goal is to be a world leader in providing quality products and services that help improve the health of millions of people across the globe.

Netprotect® provides people all over the world with intelligent protection against malaria and other vector-borne diseases. We specialize in the development, production, marketing and sales of long lasting insecticide incorporated mosquito nets, also called LLINs.

Our primary customers include the international market of non-governmental organizations, UN agencies, ministries of health, and other groups dedicated to providing humanitarian aid.

Bestnet Europe Ltd. manufactures products for developing countries in developing countries. We believe in saving lives with our products and in building competencies locally to ensure sustainability. This is done by identifying the right partners and, subsequently, by technology transfer in a comprehensive manner.

We believe **everyone has the right to a decent life**, and we are proud that our products play an important role in improving the lives of millions of people around the world.

Our core values are: Communication - Commitment – Respect -
All basic rules when interacting with people of different cultures and customs.

Our operational values are: Quality – Reliability – Flexibility - Competitiveness - Responsiveness -
All key words in our daily activities.

Our core competencies are: Insecticide incorporation. With our comprehensive knowledge of textile production, we offer the market high-quality products and services at a reasonable price and through our well-established, extensive network, our products reach even the most remote areas. We have a service-minded approach to communication, and we are committed to serving people in need. In other words, we always try to go the extra mile.
